

PATROL SHIPS

ION STORM-CLASS

Active Service: 2253-2271

Ship's Dimensions:

Length: 246.7 meters
 Width: 147.5 meters
 Height: 61.8 meters

Ship's Complement:

Officers: 32, Crew: 243

Weaponry:

Phasers: 3 Banks of 2 Cannons
 Photon Torpedoes: 2 Tubes

Ion Storm-class starships have served Starfleet in maintaining the Federation's borders as well as providing security for the inner star systems.

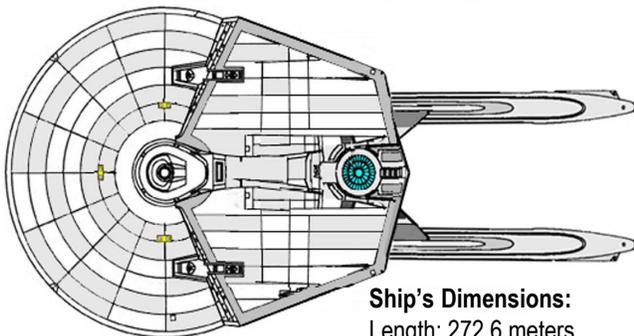

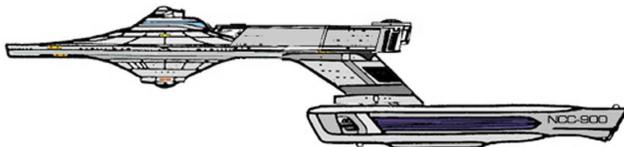

SHIPS OF THE CLASS:

- NCC-900 U.S.S. *Ion Storm*
- NCC-902 U.S.S. *Cyclone*
- NCC-903 U.S.S. *Tempest*
- NCC-904 U.S.S. *Hurricane*
- NCC-905 U.S.S. *Monsoon*
- NCC-906 U.S.S. *Typhoon*
- NCC-907 U.S.S. *Sirocco*
- NCC-908 U.S.S. *Squall*
- NCC-909 U.S.S. *Zephyr*
- NCC-910 U.S.S. *Chinook*
- NCC-911 U.S.S. *Firebolt*
- NCC-912 U.S.S. *Whirlwind*
- NCC-913 U.S.S. *Thunderbolt*
- NCC-914 U.S.S. *Shamal*
- NCC-915 U.S.S. *Tornado*

All surviving ships of this class were refitted as *Ion Storm II*-class scoutships in 2271. In 2296, all surviving ships of this class were decommissioned.

ION STORM II-CLASS

Active Service: 2271-2296

Ship's Dimensions:

Length: 272.6 meters
 Width: 147.5 meters
 Height: 61.8 meters

Ship's Complement:

Officers: 42, Crew: 293

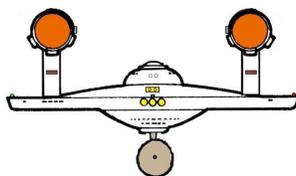

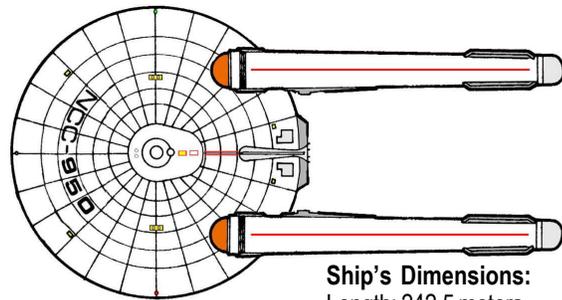

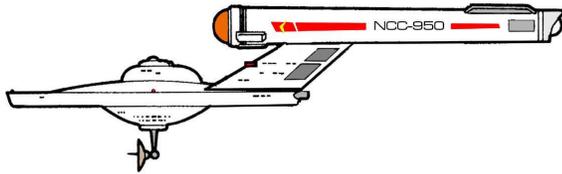

Weaponry:

Phasers: 6 Banks of 2 Cannons
 Photon Torpedoes: 4 tubes

LIGHT CRUISERS

LEONIDAS-CLASS

Active Service: 2240-2278

Ship's Dimensions:

Length: 242.5 meters

Width: 127.1 meters

Height: 80.0 meters

Ship's Complement:

Officers: 20, Crew: 198

Weaponry:

Phasers: 3 Banks of 2 Cannons

Torpedoes: 4 tubes

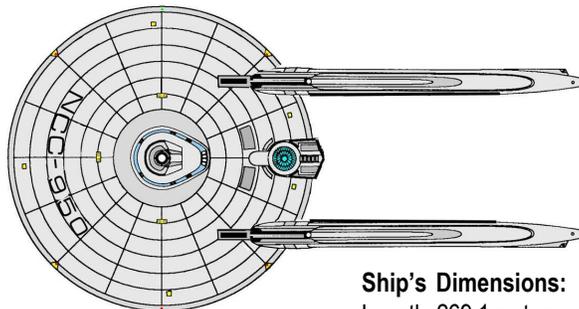

Leonidas-class starships were first introduced in response to growing tensions with the Orions and the Klingons. This vessel has served Starfleet in various military and exploratory roles. Many ships of this class saw combat in the Battle of Donatu V, and a many of them were destroyed.

SHIPS OF THE CLASS:

NCC-950	U.S.S. <i>Leonidas</i>
NCC-951	U.S.S. <i>Theodus</i>
NCC-952	U.S.S. <i>Freedom</i>
NCC-953	U.S.S. <i>Werner von Braun</i>
NCC-954	U.S.S. <i>Drake</i>
NCC-955	U.S.S. <i>Da Mo</i>
NCC-956	U.S.S. <i>Eagle</i>
NCC-957	U.S.S. <i>Justice</i>
NCC-958	U.S.S. <i>Liberty</i>
NCC-959	U.S.S. <i>Shihuang</i>
NCC-960	U.S.S. <i>Agamemnon</i>
NCC-961	U.S.S. <i>Nobuyaga</i>
NCC-962	U.S.S. <i>Armstrong</i>
NCC-963	U.S.S. <i>Okinawa</i>

LEONIDAS II-CLASS

Active Service: 2278-present

Ship's Dimensions:

Length: 269.1 meters

Width: 147.5 meters

Height: 61.8 meters

Ship's Complement:

Officers: 22, Crew: 202

Weaponry:

Phasers: 6 Banks of 2 Cannons

Photon Torpedoes: 4 tubes

In 2248, Starfleet placed a construction order for an additional 13 cruisers:

NCC-1360	U.S.S. <i>Annapolis</i>
NCC-1361	U.S.S. <i>Marin</i>
NCC-1362	U.S.S. <i>Flensburg</i>
NCC-1363	U.S.S. <i>Niteryi</i>
NCC-1364	U.S.S. <i>Greenwich</i>
NCC-1365	U.S.S. <i>Creswell</i>
NCC-1366	U.S.S. <i>Grechko</i>
NCC-1367	U.S.S. <i>Vapsarov</i>
NCC-1368	U.S.S. <i>Etajima</i>
NCC-1369	U.S.S. <i>Dartsmouth</i>
NCC-1370	U.S.S. <i>Frunze</i>
NCC-1371	U.S.S. <i>Republic</i> decommissioned in 2256
NCC-1372	U.S.S. <i>Brest</i>

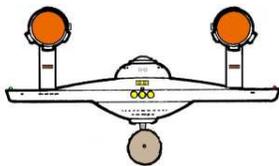

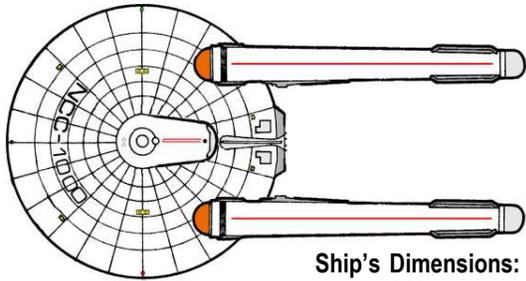

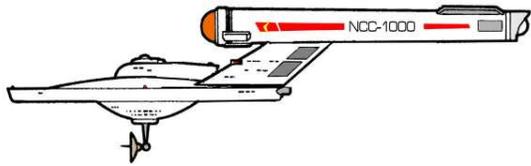

All surviving ships of this class were refitted as *Leonidas II*-class ships in 2278.

The *Republic* was used as a cadet training vessel from 2245-2256.

LIGHT CRUISERS

MINAMOTO-CLASS

Active Service: 2242-2278

Ship's Dimensions:

Length: 242.5 meters
 Width: 127.1 meters
 Height: 80.0 meters

Ship's Complement:

Officers: 23, Crew: 214

Weaponry:

Phasers: 3 Banks of 2 Cannons
 Torpedoes: 4 tubes

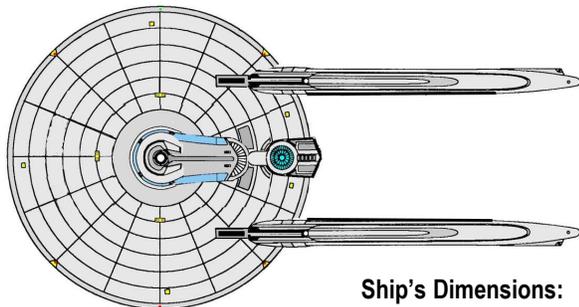

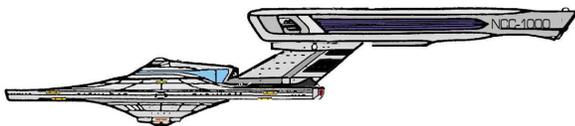

Minamota-class starships are *Leionidas* variants. This vessel has served Starfleet in various military and exploratory roles. Many ships of this class saw combat in the Battle of Donatu V, and a number of them were destroyed. The primary hull incorporates a shuttlecraft hangar at the rear of the upper hull blister, an area usually designated for scientific labs. The shuttle bay is large enough to accommodate some small fighters and a few heavy duty shuttlecraft.

SHIPS OF THE CLASS:

- NCC-1000 U.S.S. *Minamoto*
- NCC-1001 U.S.S. *Renaud*
- NCC-1002 U.S.S. *Gareth*
- NCC-1003 U.S.S. *Sun Tzu*
- NCC-1004 U.S.S. *Gayferos*
- NCC-1005 U.S.S. *De Soto*
- NCC-1006 U.S.S. *Kelsey*
- NCC-1007 U.S.S. *Toyotomi*
- NCC-1008 U.S.S. *De Beauchamp*

- NCC-1010 U.S.S. *Joliet*
- NCC-1011 U.S.S. *Nebula*
- NCC-1012 U.S.S. *G'rekso*
- NCC-1013 U.S.S. *Coronado*
- NCC-1014 U.S.S. *Pelias*
- NCC-1015 U.S.S. *Yax Eb' Xook*
- NCC-1016 U.S.S. *Calaynos*
- NCC-1017 U.S.S. *Constellation*** destroyed in 2244
- NCC-1018 U.S.S. *Tristan*
- NCC-1019 U.S.S. *Acastus*
- NCC-1020 U.S.S. *Nuun Yax Ayin*
- NCC-1021 U.S.S. *Pizarro*

MINAMOTO II-CLASS

Active Service: 2278-present

Ship's Dimensions:

Length: 269.1 meters
 Width: 147.5 meters
 Height: 61.8 meters

Ship's Complement:

Officers: 26, Crew: 216

Weaponry:

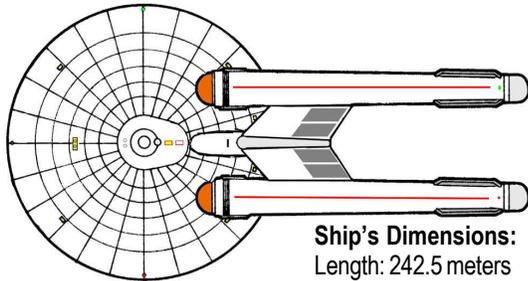

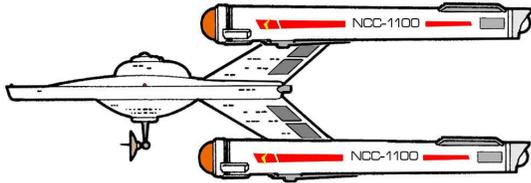

Phasers: 6 Banks of 2 Cannons
 Torpedoes: 4 Tubes

All surviving ships of this class were refitted as *Minamoto II*-class ships in 2278.

ESCORTS

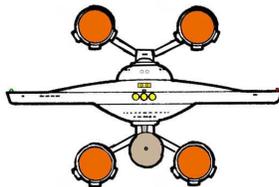

BEGIN-CLASS

Active Service: 2253-2275

Ship's Dimensions:

Length: 242.5 meters
Width: 127.1 meters
Height: 90.0 meters

Ship's Complement:

Officers: 20, Crew: 180

Weaponry:

Phasers: 1 Banks of 2 Cannons
Torpedoes: none

Begin-class starships have served Starfleet in escorting convoys as well as providing diplomatic courier services throughout the Federation. They are also capable of being used as escorts for command ships.

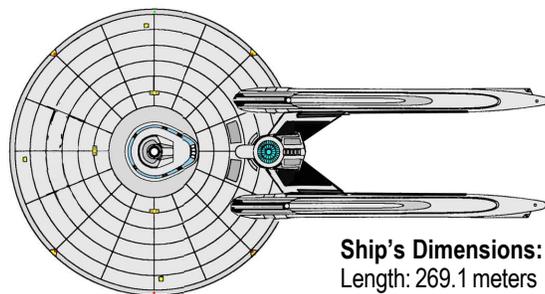

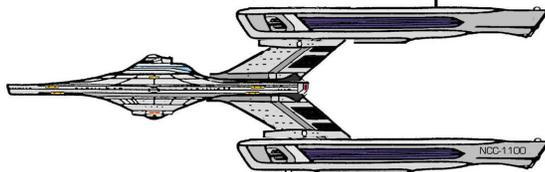

SHIPS OF THE CLASS:

NCC-1100	U.S.S. <i>Begin</i>
NCC-1101	U.S.S. <i>Kavanga</i>
NCC-1102	U.S.S. <i>Surak</i>
NCC-1103	U.S.S. <i>Carter</i>
NCC-1104	U.S.S. <i>Jackson</i>
NCC-1105	U.S.S. <i>Tutu</i>
NCC-1106	U.S.S. <i>T'lengat</i>
NCC-1107	U.S.S. <i>Teresa</i>
NCC-1108	U.S.S. <i>Sanchez</i>
NCC-1109	U.S.S. <i>King</i>
NCC-1110	U.S.S. <i>Marco Polo</i>
NCC-1111	U.S.S. <i>Supok</i>
NCC-1112	U.S.S. <i>Walesa</i>
NCC-1113	U.S.S. <i>Gneigquo</i>
NCC-1114	U.S.S. <i>Mandela</i>
NCC-1115	U.S.S. <i>Mahuad</i>

NCC-1118	U.S.S. <i>Gandhi</i>
NCC-1119	U.S.S. <i>Grenn</i>
NCC-1120	U.S.S. <i>Fujimori</i>
NCC-1121	U.S.S. <i>Sadat</i>
NCC-1122	U.S.S. <i>Kineepikwa</i>

All surviving ships of this class were refitted as *Sadat II*-class ships in 2275.

BEGIN II-CLASS

Active Service: 2275-present

Ship's Dimensions:

Length: 269.1 meters
Width: 147.5 meters
Height: 93.5 meters

Ship's Complement:

Officers: 34, Crew: 270

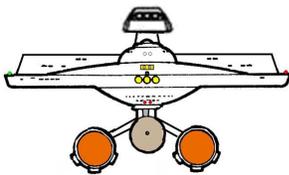

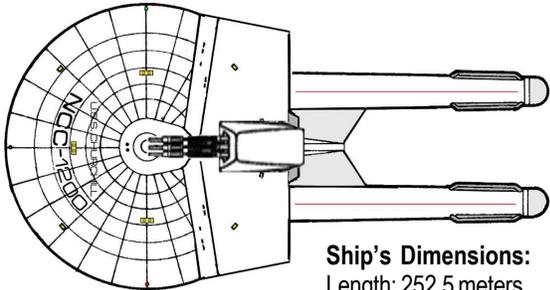

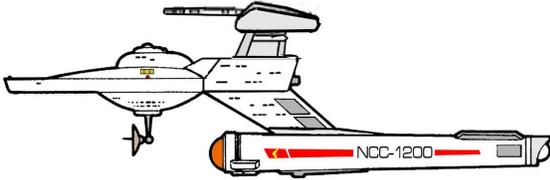

Weaponry:

Phasers: 6 Banks of 2 Cannons
Torpedoes: 8 Tubes

ASSAULT PATROL CRUISERS

CHURCHILL-CLASS

Active Service: 2255-2278

Ship's Dimensions:

Length: 252.5 meters

Width: 127.1 meters

Height: 93.2 meters

Ship's Complement:

Officers: 28, Crew: 246

Weaponry:

Phasers: 6 Banks of 2 Cannons

Megaphaser: 1 Turret

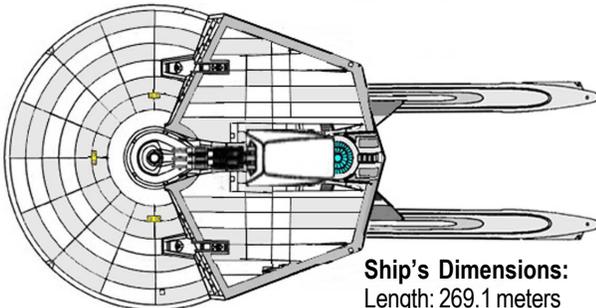

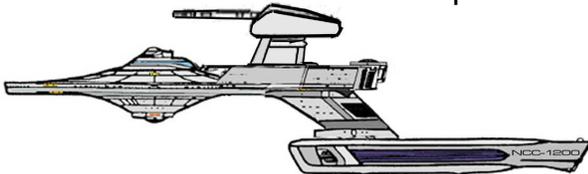

Churchill-class starships have served Starfleet in maintaining the Federation's security and often serve as the Federation's might when two or more of its members threaten to enter into warfare. *Churchill*-class starships are often sent into such situations to keep both sides of the conflict at bay until a diplomatic solution can be found.

SHIPS OF THE CLASS:

- NCC-1200 U.S.S. *Churchill*
- NCC-1201 U.S.S. *Tutol*
- NCC-1202 U.S.S. *Grant*
- NCC-1203 U.S.S. *Mitsusuke*
- NCC-1204 U.S.S. *Hanzo*
- NCC-1205 U.S.S. *Heyerdahl*

- NCC-1220 U.S.S. *Samurai*
- NCC-1221 U.S.S. *Junyo*
- NCC-1222 U.S.S. *Yamashiro*

CHURCHILL II-CLASS

Active Service: 2278-present

Ship's Dimensions:

Length: 269.1 meters

Width: 147.5 meters

Height: 98.5 meters

Ship's Complement:

Officers: 32, Crew: 262

Weaponry:

Phasers: 6 Banks of 2 Cannons

Megaphasers: 1 Turret

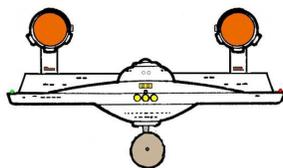

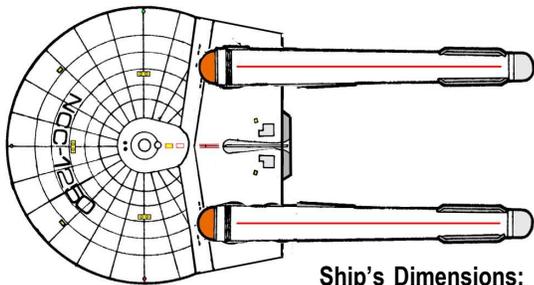

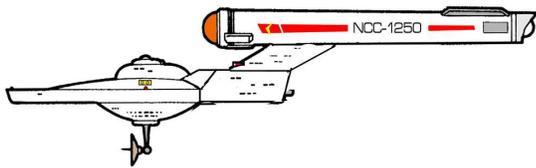

Torpedoes: 4 Tubes

All surviving ships of this class were refitted as *Churchill II*-class ships in 2278.

COMMAND CRUISERS

RANGER-CLASS

Active Service: 2240-2278

Ship's Dimensions:

Length: 252.5 meters

Width: 127.1 meters

Height: 80.0 meters

Ship's Complement:

Officers: 48, Crew: 229

Weaponry:

Phasers: 6 Banks of 2 Cannons

Torpedoes: 4 tubes

Ranger-class starships (which are *Leonidas* variants) have served Starfleet in maintaining the Federation's borders during times of peace and war. They are also capable of extensive survey missions to outlying areas of Federation territory. Many ships of this class were destroyed during the Battle of Donatu V.

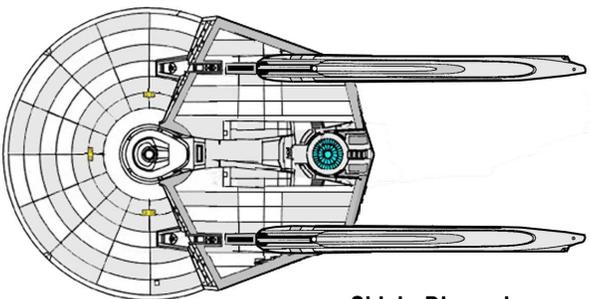

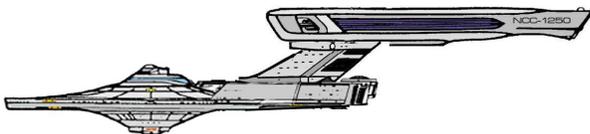

SHIPS OF THE CLASS:

NCC-1250	U.S.S. <i>Ranger</i>
NCC-1251	U.S.S. <i>Blanco Encalada</i>

NCC-1274	U.S.S. <i>Jeanne d'Arc</i>
NCC-1275	U.S.S. <i>Gotland</i>
NCC-1276	U.S.S. <i>Glyndwr</i>

All surviving ships of this class were refitted as *Ranger II*-class ships in 2278.

RANGER II-CLASS

Active Service: 2278-present

Ship's Dimensions:

Length: 260.2 meters

Width: 147.5 meters

Height: 63.5 meters

Ship's Complement:

Officers: 60, Crew: 314

Weaponry:

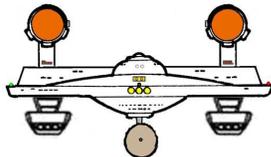

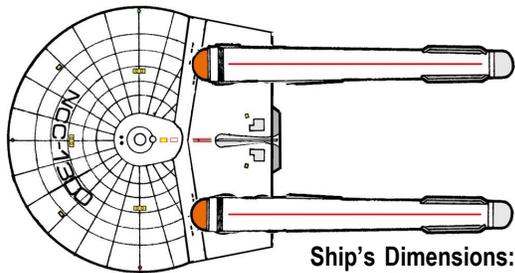

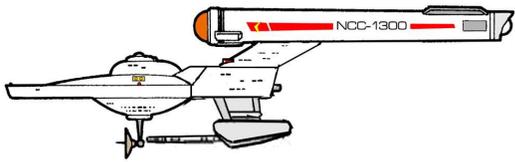

Phasers: 6 Banks of 2 Cannons

Torpedoes: 4 Tubes

ASSAULT CRUISERS

FORRESTAL-CLASS

Active Service: 2241-2278

Ship's Dimensions:

Length: 252.5 meters
 Width: 127.1 meters
 Height: 80.0 meters

Ship's Complement:

Officers: 50, Crew: 283

Weaponry:

Phasers: 6 Banks of 2 Cannons
 Megaphasers: 2 Turrets
 Torpedoes: 4 tubes

Forrestal-class starships have served Starfleet as the first line of defense of Federation territory from pirates and renegades and outright invasions. They are also capable of long-range exploration missions. Many ships of this class were destroyed during the Battle of Donatu V.

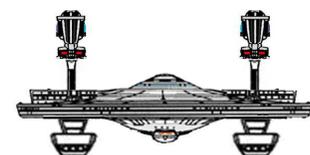

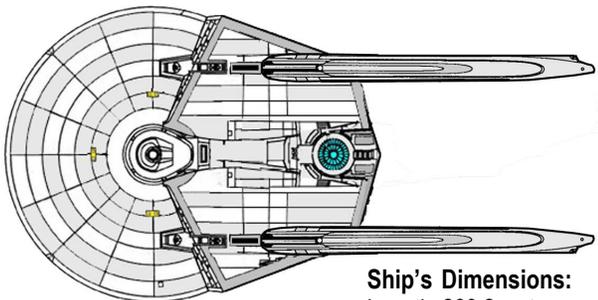

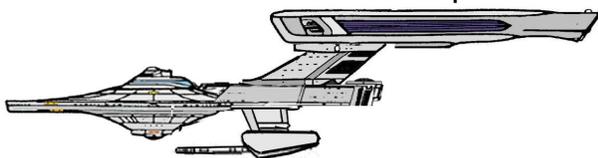

SHIPS OF THE CLASS:

- NCC-1300 U.S.S. *Forrestal*
- NCC-1301 U.S.S. *Battler*
- NCC-1302 U.S.S. *Attacker*
- NCC-1303 U.S.S. *Chaser*
- NCC-1304 U.S.S. *Slinger*
- NCC-1305 U.S.S. *Yamato***
- NCC-1306 U.S.S. *Ravager*
- NCC-1307 U.S.S. *Boxer*
- NCC-1308 U.S.S. *Dasher*
- NCC-1309 U.S.S. *Bennington*
- NCC-1310 U.S.S. *Randolph*
- NCC-1311 U.S.S. *Tracker*
- NCC-1312 U.S.S. *Smiter*

The few surviving ships of this class were refitted as *Forrestal II*-class ships in 2278.

FORRESTAL II-CLASS

Active Service: 2278-present

Ship's Dimensions:

Length: 260.2 meters
 Width: 147.5 meters
 Height: 68.5 meters

Ship's Complement:

Officers: 72, Crew: 352

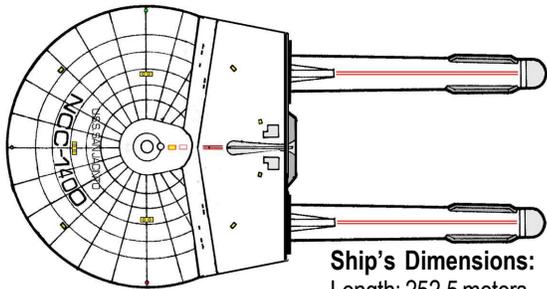

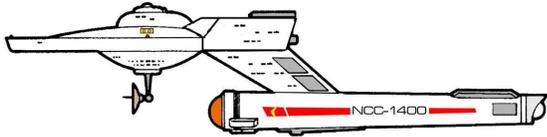

Weaponry:

Phasers: 6 Banks of 2 Cannons
 Megaphasers: 2 Turrets
 Torpedoes: 4 Tubes

FRIGATES

SAN JACINTO-CLASS

Active Service: 2257-2274

**Ship's Dimensions:**

Length: 252.5 meters

Width: 127.1 meters

Height: 60 meters

**Ship's Complement:**

Officers: 48, Crew: 272

Weaponry:

Phasers: 6 Banks of 2 Cannons

Torpedoes: 8 tubes

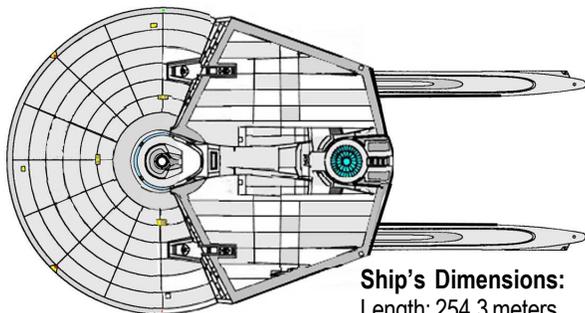

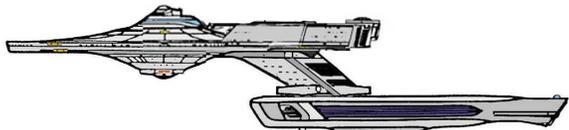

San Jacinto-class starships have served Starfleet in maintaining the Federation's borders and preserving the security of Federation colonies. With their large hangar decks, they also can transport material, personnel, fighters and shuttles into warzones.

SHIPS OF THE CLASS:NCC-1400 U.S.S. *San Jacinto*NCC-1401 U.S.S. *Terrible*NCC-1402 U.S.S. *Majestic*NCC-1403 U.S.S. *Reprisal*NCC-1404 U.S.S. *Magnificent*NCC-1405 U.S.S. *Gadila*NCC-1406 U.S.S. *Stennis*NCC-1407 U.S.S. *Macoma*NCC-1408 U.S.S. *Leviathan*NCC-1409 U.S.S. *Charger*NCC-1400 U.S.S. *Monmouth*NCC-1401 U.S.S. *Inflexible*NCC-1402 U.S.S. *Arrogant*

All surviving ships of this class were refitted as *San Jacinto II*-class ships in 2274.

SAN JACINTO II-CLASS

Active Service: 2274-present

**Ship's Dimensions:**

Length: 254.3 meters

Width: 147.5 meters

Height: 63.5 meters

**Ship's Complement:**

Officers: 68, Crew: 330

Weaponry:

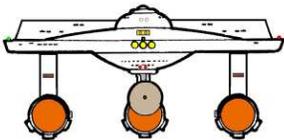

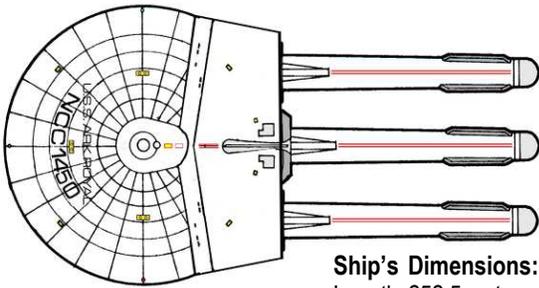

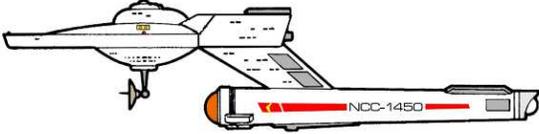

Phasers: 6 Banks of 2 Cannons

Torpedoes: 12 Tubes

FAST FRIGATES

ARK ROYAL-CLASS

Active Service: 2258-2274

Ship's Dimensions:

Length: 252.5 meters
 Width: 127.1 meters
 Height: 60 meters

Ship's Complement:

Officers: 48, Crew: 272

Weaponry:

Phasers: 6 Banks of 2 Cannons
 Torpedoes: 8 tubes

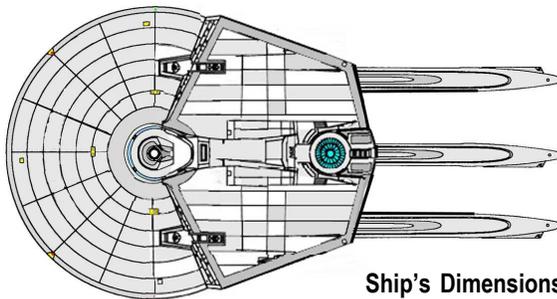

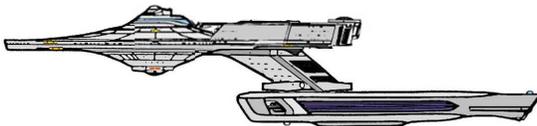

Ark Royal-class starships have served Starfleet in by being the first ships on the scene of interstellar incidents, both natural catastrophes and acts of war. With their large hangar decks, they also can transport material, personnel, fighters and shuttles into warzone, and are often known for carrying extra marine divisions and fighter craft.

SHIPS OF THE CLASS:

- NCC-1450 U.S.S. *Ark Royal*
- NCC-1451 U.S.S. *Colossus*
- NCC-1452 U.S.S. *Albion*
- NCC-1453 U.S.S. *Warrior*
- NCC-1454 U.S.S. *Glory*
- NCC-1455 U.S.S. *Illustrious*
- NCC-1456 U.S.S. *Edgar*
- NCC-1457 U.S.S. *Polyphemus*
- NCC-1458 U.S.S. *Bulwark*
- NCC-1459 U.S.S. *Venerable*
- NCC-1460 U.S.S. *Powerful*
- NCC-1461 U.S.S. *Theseus*
- NCC-1462 U.S.S. *Triumph*

ARK ROYAL II-CLASS

Active Service: 2274-present

Ship's Dimensions:

Length: 254.3 meters
 Width: 147.5 meters
 Height: 63.5 meters

Ship's Complement:

Officers: 68, Crew: 330

Weaponry:

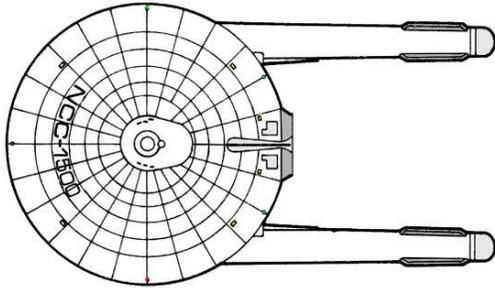

Phasers: 6 Banks of 2 Cannons
 Torpedoes: 12 Tubes

All surviving ships of this class were refitted as *Ark Royal II*-class ships in 2274.

LIGHT FRIGATE

CENTAUR-CLASS

Active Service: 2240-2278

Ship's Dimensions:

Length: 222.0 meters
 Width: 127.1 meters
 Height: 66.0 meters

Ship's Complement:

Officers: 20, Crew: 180

Weaponry:

Phasers: 1 Banks of 2 Cannons
 Torpedoes: 2 Tubes

Centaur-class starships were first introduced in response to Starfleet concerns about Orion piracy in 2240. They are primarily designed to patrol Federation territory and serve as police vessels as needed.

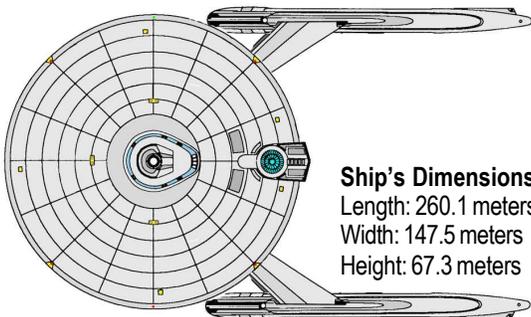

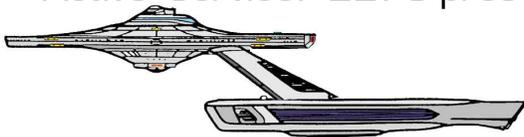

SHIPS OF THE CLASS:

- NCC-1500 U.S.S. *Centaur*
- NCC-1501 U.S.S. *Nessus*
- NCC-1502 U.S.S. *Pholus*
- NCC-1503 U.S.S. *Eurytion*
- NCC-1504 U.S.S. *Hylaeus*
- NCC-1505 U.S.S. *Rhoeteus*
- NCC-1506 U.S.S. *Pindar*
- NCC-1507 U.S.S. *Pheres*
- NCC-1508 U.S.S. *Motaro*
- NCC-1509 U.S.S. *Ixion*
- NCC-1510 U.S.S. *Arcadia*
- NCC-1511 U.S.S. *Cheiron*
- NCC-1512 U.S.S. *Thessaly*
- NCC-1513 U.S.S. *Perry*
- NCC-1514 U.S.S. *Talbot*
- NCC-1515 U.S.S. *Hull*
- NCC-1516 U.S.S. *Preble*
- NCC-1517 U.S.S. *Bainbridge*
- NCC-1518 U.S.S. *Macdonough*

All surviving ships of this class were refitted as *Centaur II*-class ships in 2278.

CENTAUR II-CLASS

Active Service: 2278-present

Ship's Dimensions:

Length: 260.1 meters
 Width: 147.5 meters
 Height: 67.3 meters

Ship's Complement:

Officers: 38, Crew: 241

Weaponry:

Phasers: 6 Banks of 2 Cannons

LONG-RANGE CRUISERS

MUSASHI-CLASS
Active Service: 2240-2244

Ship's Dimensions:
Length: 222.0 meters
Width: 127.1 meters
Height: 66 meters

Ship's Complement:
Officers: 24, Crew: 202

Weaponry:
Phasers: 3 Banks of 2 Cannons
Torpedoes: 2 tubes

Musashi-class starships were first introduced as a heavy cruiser in 2240. Unfortunately, this design, although thoroughly tested as stable in all warp simulations, simply did not work well, and the design was discontinued and abandoned following the destruction of the entire class during the Battle of Donatu V.

SHIPS OF THE CLASS:

- NCC-1550 U.S.S. *Musashi*
- NCC-1551 U.S.S. *Shirota*
- NCC-1552 U.S.S. *Yamanaka*
- NCC-1553 U.S.S. *Sokan*
- NCC-1554 U.S.S. *Dorinbo*
- NCC-1555 U.S.S. *Arima*
- NCC-1556 U.S.S. *Jones*
- NCC-1557 U.S.S. *Decatur*
- NCC-1558 U.S.S. *Schley*
- NCC-1559 U.S.S. *Porter*
- NCC-1560 U.S.S. *Barney*
- NCC-1561 U.S.S. *Halsey*

SAIPAN-CLASS
Active Service: 2240-2249

Ship's Dimensions:
Length: 222.0 meters
Width: 127.1 meters
Height: 86.4 meters

Ship's Complement:
Officers: 26, Crew: 213

Weaponry:
Phasers: 3 Banks of 2 Cannons
Torpedoes: 4 tubes

Saipan-class were introduced in 2240. These starships have served Starfleet in maintaining the Federation's navigation, hazard and prohibition buoys. They are also capable of being used as mine sweepers and mine tenders during wartime operations. Due to the configuration, the ships of this class were not capable of high warp velocities, and the design was decommissioned in 2249.

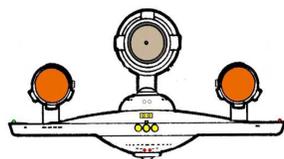

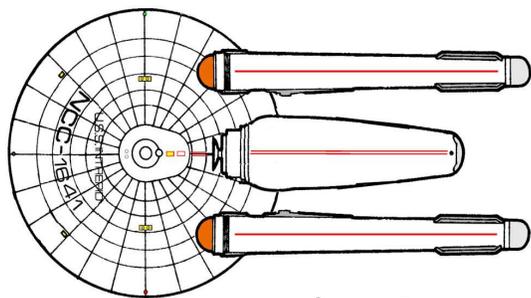

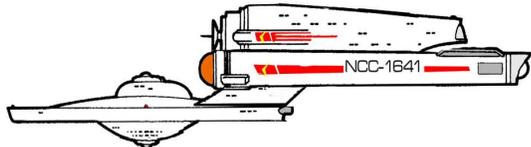

SHIPS OF THE CLASS:

- NCC-1600 U.S.S. *Saipan*
- NCC-1601 U.S.S. *T'ram*
- NCC-1602 U.S.S. *Gorbat*
- NCC-1603 U.S.S. *Kleitos*
- NCC-1604 U.S.S. *Og-baj*
- NCC-1605 U.S.S. *Duus*
- NCC-1606 U.S.S. *Zegni*
- NCC-1607 U.S.S. *Shran*
- NCC-1608 U.S.S. *Lor*

- NCC-1610 U.S.S. *Chitlo*

LONG-RANGE CRUISERS

CHESAPEAKE-CLASS

Active Service: 2240-2259

Ship's Dimensions:

Length: 259.2m

Width: 127.1m

Height: 76.6m

Ship's Complement:

Officers: 30; Crew: 165

Weaponry:

Phasers: 3 Banks of 2 Cannons

Photon Torpedoes: 2 Tubes

Chesapeake-class starships have served Starfleet in exploration of deep space sectors. Marginally successful as long-range cruisers, this class of ship was phased out in favor of the *Constitution*-class heavy cruisers.

SHIPS OF THE CLASS:
